The questions so submitted shall be stated upon the ballot in substantially the same language and form in which they were stated when presented to said representative town meeting by the moderator as appears from the records of the said meeting. If one or more, but less than all, of several petitioners provide their respective proportions of the fund estimated as necessary to make such improvements, the board may appoint commissioners to make such portion of such improvements as, in its opinion, will benefit the contributors. For the purpose of effecting such improvements and providing for their maintenance as provided in this section, the board shall have all the powers conferred by sections two, three, four, five, except the last paragraph thereof, and eight, and the commissioners by it appointed shall have all the powers conferred upon district commissioners under sections twelve and thirteen, provided that in taking by eminent domain or acquiring by purchase, gift or otherwise, land or other property or any interest therein, the commissioners so appointed shall take or acquire the same in the name and on behalf of the city or town wherein the land or other property or interests are situated, but not until such city or town has duly authorized such taking, has assumed all liability for damages therefor and has complied with all provisions of law applicable to land takings by cities or towns. The proceeds of any such sale or lease shall be used for the payment of costs of construction and after construction is completed shall be paid into the sinking fund hereinafter provided for.

SECTION 5. The department may order the removal or relocation of any surface tracks, and the removal or relocation of any conduits, pipes, wires, poles, or other property located in public ways or places, which it deems to interfere with the laying out, construction or operation of the tunnel and other facilities authorized by this act, and shall grant new locations for any such structure so removed or relocated. Such orders, to the extent specified therein, shall be deemed a revocation of the right or license to maintain such tracks, pipes, conduits, wires, poles, or other property in such public ways or places, and the owner of any such structures in public ways or lands shall comply with such orders without expense to the city. If any such owner shall fail to comply with the order of the department within a reasonable time, to be fixed in the order, the department may discontinue and remove such tracks, conduits, pipes, wires, poles, or other property, and may relocate the same, and the cost of such discontinuance, removal or relocation shall be repaid to the city by the owner. No such discontinuance, removal or relocation shall entitle the owner of the property thus affected to any damages on account thereof. Any such structure in or upon private lands may be removed and relocated by the department, or, if removed and relocated by the owner thereof, the reasonable expense shall be repaid to him by the department. Any gas or electric lighting company shall shut off the gas or current from any pipes or wires affected by any acts done hereunder, so far and for such time as may be necessary to prevent the escape or explosion of gas, or other public danger. This section shall not apply to facilities on property of the commonwealth under the control of the department of public works or installed under licenses or permits granted by said department, except with its approval.

SECTION 6. The city may place in the tunnel such wires and apparatus as may be necessary for its police and fire-alarm service, to be used, however, exclusively for such service and to be so placed as the department may determine, but this privilege shall not extend to water pipes, except such as may be needed for fire protection and other uses therein.

City may place wires and apparatus in tunnel necessary for police and fire-alarm service, etc.

The department may place and maintain or may grant permission to any corporation or person to place and maintain within the tunnel ducts or other structures, to be so located as not to interfere with the safe and convenient operation and maintenance of the tunnel and other apparatus which the city is hereinbefore permitted to place therein, and may contract with any such person or corporation for such permission or for the use of such ducts or other structures at such annual rate of rental as may be fixed by the department. The construction, maintenance and repairs of any such ducts or other structures shall be subject to such directions and regulations as the department may impose.

Department may place, or grant permission to any corporation or person to place, ducts or other structures within tunnel, etc.

SECTION 7. No contract for construction work or for the purchase of apparatus, supplies or materials, the estimated cost of which amounts to five hundred dollars or more, shall be awarded by the department under this act unless proposals for the same have been invited by advertisements in at least one newspaper published in the city once a week for at least two consecutive weeks, the last publication to be at least one week before the time specified for the opening of said proposals. Such advertisements shall state the time and place where plans and specifications of proposed work or supplies may be had and the time and place for opening the proposals in answer to said advertisements, and shall reserve to the department the right to reject any or all proposals. All such proposals shall be opened in public. No bill or contract shall be split or divided for the purpose of evading any provision of this section. All contracts made by the department hereunder, where the amount involved is five hundred dollars or more, shall be in writing, and no such contract shall be deemed to have been made or executed until the approval of the mayor is affixed thereto. Any contract made as aforesaid may be required to be accompanied by a bond with sureties satisfactory to the department, or by a deposit of money, certified check or other security for the faithful performance thereof, and such bonds or other securities shall be deposited with the city treasurer until the contract has been carried out in all respects; and no such contract shall be altered except by a written agreement of the contractor, the sureties on his bond and the department, with the approval of the mayor.

Such bonds shall be designated on their face, Traffic Tunnel Bonds, City of Boston, Act of 1929, shall be for such terms, not exceeding fifty years, as the mayor and the treasurer of the city may determine, and shall bear such interest, payable semi-annually, as the mayor and the treasurer of the city may determine. Such bonds may be called, retired and cancelled by the city on any date upon which interest is payable on said bonds after twenty years from their respective dates, by payment by the city of the amount of the face of said bonds with any accumulated unpaid interest, and the bonds shall contain a statement to such effect. The proceeds of such bonds shall be used only to meet the cost of the tunnel as hereinbefore defined. The debt incurred from time to time under the provisions of this act shall not be included in determining the limit of indebtedness of the city as established by law. The board of sinking fund commissioners of the city shall establish a sinking fund for the payment of the bonds issued under authority hereof. There shall annually be paid into such fund from tolls and charges or otherwise as hereinafter provided such sum at least as is necessary to provide for the payment of the principal of all such bonds at the expiration of fifty years from their respective dates; provided, that the first payment into said fund shall not be made prior to the expiration of one year after the entire tunnel is in operation. Upon and after the completion of the tunnel as aforesaid there shall also be paid into said fund the proceeds received from any sales or leases under section four and the balance of the proceeds of any bonds previously issued hereunder and no longer required for construction purposes.

SECTION 9. Upon the completion of the tunnel, the public works department of the city shall operate the same as a toll tunnel, and shall from time to time establish a schedule of tolls and charges for the use of the same, which, in the opinion of said public works department, subject to the approval of the department of public utilities, will pay all operating costs, which term wherever used in this act shall

include charges for adequate maintenance and upkeep, operating expenses including therein proper policing, lighting, and ventilating, interest on all bonds issued under authority hereof, and such annual amounts as are necessary to provide a sinking fund for the payment of the principal of such bonds upon the expiration of such period of time, not less than twenty nor more than fifty years after their respective dates, as said public works department, with the approval of the department of public utilities, shall from time to time determine. If in any year such schedule of tolls and charges should prove to be insufficient, the said public works department shall establish such tolls and charges as will provide sufficient revenue to meet any deficit; provided, that if in the opinion of the said public works department such new schedule of rates and charges would not result in an increase in revenue, then it may establish such new schedule of tolls and charges as it deems will produce the maximum revenue and any deficits resulting therefrom shall be met as provided in section eleven. All schedules of tolls and charges established under this section or under section twelve shall be subject to the approval of the department of public utilities. The said public works department shall collect such tolls and charges from the driver of each vehicle using said tunnel, and shall daily pay the same over to the city collector of Boston; provided, that no toll or charge shall be collected from the drivers of vehicles owned by the city or from drivers of ambulances.

If for any year ending on the last day of June the operating costs, including for sinking fund requirements, however, only such amount as is required by section eight, exceed the receipts from such tolls and charges, the said treasurer shall notify the assessors of the city of the amount of such excess and the same amount shall be added to the amount to be raised by the city in the next

If any such excess occurs after the city shall have been reimbursed in full for all amounts so raised by taxation, the public works department shall, subject to the provisions of said section nine, establish a reduced schedule of tolls and charges, sufficient, however, to meet the operating costs.

G. L. 152, § 15,
amended.

Recovery of damages for injuries to employees of persons insured under workmen's compensation laws caused under circumstances creating a legal liability in some person other than the insured, etc.

SECTION 1. Chapter one hundred and fifty-two of the General Laws is hereby amended by striking out section fifteen and inserting in place thereof the following:—
Section 15. Where the injury for which compensation is payable was caused under circumstances creating a legal liability in some person other than the insured to pay damages in respect thereof, the employee may at his option proceed either at law against that person to recover damages or against the insurer for compensation under this chapter, but not against both. If compensation be paid under this chapter, the insurer may enforce, in the name of the employee or in its own name and for its own benefit, the liability of such other person; and in case the insurer recovers a sum greater than that paid by it to the employee, four fifths of the excess shall be paid to the employee; but the insurer shall not make any settlement by agreement with such other person without the approval of the industrial accident board. An employee shall not be held to have exercised his option under this section to proceed at law if,

at any time prior to trial of an action at law brought by him against such other person, he shall, after notice to the insurer, discontinue such action, provided that upon payment of compensation following such discontinuance the insurer shall not have lost its right to enforce the liability of such other person as hereinbefore provided.

SECTION 3. The state treasurer in his warrant shall require the selectmen or assessors to pay, or issue severally their warrant or warrants requiring the treasurers of their several cities and towns to pay to the state treasurer, on or before November twentieth in the year nineteen hundred and twenty-nine, the sums set against said cities and towns in the schedule aforesaid; and the selectmen or assessors, respectively, shall return a certificate of the names of the treasurers of their several cities and towns, with the sum which each may be required to collect, to the state treasurer at some time before September first in the year nineteen hundred and twenty-nine.

Notice to treasurers of delinquent cities and towns.

SECTION 4. If the amount due from any city or town, as provided in this act, is not paid to the state treasurer within the time specified, then the state treasurer shall notify the treasurer of such delinquent city or town, who shall pay into the treasury of the commonwealth, in addition to the tax, such further sum as would be equal to one per cent per month during the delinquency from and after November twentieth in the year nineteen hundred and twenty-nine; and if the same remains unpaid after December first in the year nineteen hundred and twenty-nine, an information may

Chap. 379 AN ACT CONCERNING MUNICIPAL LIGHTING PLANTS AND THE POWERS OF THE DEPARTMENT OF PUBLIC UTILITIES RELATIVE THERETO.

Be it enacted, etc., as follows:

G. L. 161, § 12, amended.

SECTION 1. Chapter one hundred and sixty-four of the General Laws is hereby amended by striking out section forty-two and inserting in place thereof the following:—

Establishment of municipal lighting plant, purchase of existing plant.

Section 42. If, when a town votes to establish a municipal lighting plant, any person or municipality was, at the time of the first vote required by section thirty-five or thirty-six, engaged in generating or distributing gas or electricity for sale for lighting purposes in such town, the town may purchase of him or it, at such price and on such terms as may be agreed upon, such portion of his or its plant and property within the limits of such town as such town desires for its use and as can be agreed upon, provided, however,

Proviso,

that no such purchase shall be consummated by a city unless approved by vote of its city council, or of its commissioners if the city government consists of a commission, or by a town unless ratified by the voters at a town meeting.

SECTION 2. Said chapter one hundred and sixty-four is hereby further amended by striking out section forty-three and inserting in place thereof the following:— *Section 43.* If a town which votes to establish a municipal lighting plant fails, within one hundred and fifty days from the passage of the final vote required by section thirty-five or thirty-six, to agree, as to price or as to the property to be included in the purchase, with any person or municipality engaged at the time of the first vote required by said section thirty-five or thirty-six in generating or distributing gas or electricity for sale for lighting purposes in such town and electing to sell, either such town or such person or municipality may apply to the department within thirty days after the expiration of said one hundred and fifty days for a determination as to what property ought in the public interest to be included in the purchase and what price should be paid, having in view the cost of the property less a reasonable allowance for depreciation and obsolescence, and any other element which may enter into a determination of a fair value of the property so purchased, but such value shall be estimated without enhancement on account of future earning capacity or good will, or of exclusive privileges derived from rights in the public ways; and thereupon the department, after notice to the parties, shall give a hearing thereon and make the determination aforesaid. Such property shall include such portion of the property of such person or municipality within the limits of such town as is suitable for, and used in connection with, the generation or distribution of gas or electricity within such limits; provided, that such purchase shall include both a gas and electric lighting plant only if a single corporation owns or operates both such plants. Such price shall include damages, if any, which the department finds would be caused by the severance of the property proposed to be included in the purchase from other property of the owner. If any such property is subject to any mortgages, liens or other encumbrances, the department in making its determination shall provide for the deduction or withholding from the purchase price, pending discharge, of such sum or sums as it deems proper.

If within thirty days after such determination shall have been made by the department, the owner shall notify the town of its acceptance of the determination as made by the department, and within a further period of thirty days shall tender a good and sufficient deed of conveyance to the city or town clerk of the property required by the department to be purchased, and shall then place said deed in escrow, the town shall have sixty days in which to accept or reject said tender, and if it accepts shall have a further period of sixty days in which to pay to the owner the price deter-

Such authorization shall be upon such terms and with such limitations and restrictions as the department deems for the public interest. A town so authorized shall thereafter have in

such adjoining town the same rights and privileges, and be subject to the same limitations and obligations, as it has within its own territorial limits.

SECTION 7. Sections forty-eight, forty-nine and fifty of said chapter one hundred and sixty-four are hereby repealed.

AN ACT TO PROVIDE AN ALTERNATIVE METHOD OF TAKING PROPERTY BY EMINENT DOMAIN AND ASSESSING BETTERMENTS BY PUBLIC AUTHORITIES.

Chap. 380

Whereas, The deferred operation of this act would in part defeat its purpose, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

Emergency
preamble.

Be it enacted, etc., as follows:

SECTION 1. The General Laws are hereby amended by inserting after chapter eighty, under the title, EMINENT DOMAIN TAKINGS AND BETTERMENT ASSESSMENTS BY JUDICIAL PROCEEDINGS, the following new chapter:—

G. L., new
chapter after
chapter 80.

CHAPTER 80A.

EMINENT DOMAIN TAKINGS AND BETTERMENT ASSESSMENTS BY JUDICIAL PROCEEDINGS.

Section 1. A board of officers, hereinafter called the board, upon whom authority to take real estate by eminent domain on behalf of the commonwealth or of any county, city, town or district thereof, hereinafter described as the body politic, has been conferred by law, for the purpose of effecting a public improvement, may, at its election, instead of proceeding in accordance with chapter seventy-nine, or in accordance with chapters seventy-nine and eighty if betterments are to be assessed, institute proceedings for the taking of real estate or any interest therein, and for the assessment of betterments, in accordance with this chapter. So much of sections two to fifteen, inclusive, as relates to the assessment of betterments shall apply only to proceedings thereunder wherein the board votes under section two to assess betterments and so states in the order adopted thereunder.

of state, or of
any county,
city, town or
district thereof.

Section 2. The board, having first complied with all the preliminary requirements prescribed by law, shall adopt an order of intention to take, which shall contain a description of the property to be taken sufficiently accurate for identification, and shall state the interest therein to be taken and the purpose for which such property is to be taken, and, if betterments are to be assessed therefor, shall so state; otherwise, it shall state that no betterments are to be assessed. In case there are trees upon land so to be taken, or structures affixed thereto, the order shall state whether the same are to be included in the taking, and, if they are not to be so

tion to take, etc.

included, shall allow the owner a reasonable time after the taking becomes absolute to remove the same, to be specified in the order.

Order, plan
and estimate.

Section 3. The order shall contain an estimate of all damages sustained by every person in his property by reason of such taking as of the date of the adoption of the order, and shall contain an estimate of the cost of the improvement, including such damages, and, if betterments are to be assessed, a description sufficiently accurate for identification of the area which it is expected will receive benefit or advantage, other than the general advantage to the community, from such improvement, and shall refer to a plan of such area, and shall contain an estimate of the betterments that will be assessed upon each parcel of land within such area. Notice of the adoption of such order shall be sent forthwith by registered mail to every person, whose address is known, appearing of record to have an interest in any land to be taken, damaged or assessed, by or on account of the proposed improvement, setting forth all estimates contained in said order in relation to said land, and a like notice shall be posted in a conspicuous place on each parcel thereof. Such order, plan and estimate shall be recorded, within ten days from the adoption of the order, in the registry of deeds of every county or district in which property to be taken or assessed is situated.

Notice of
adoption of
order, etc.

Recording.

Petition to
superior court,
etc.

Section 4. Within ten days from the recording of such order, plan and estimate, the board shall cause to be filed in the superior court of the county in which such proposed public improvement or the major part thereof is situated a petition on behalf and in the name of the body politic undertaking such improvement, to establish its right to take the property described in the order and, if betterments are to be assessed, to assess the same on account of the special benefits to be derived from the improvement, and to determine the compensation and damages to be paid, the area to be assessed and the amount of the benefits to be made the basis of assessments. The petition shall contain a copy of the order and estimates, and shall designate the registry or registries of deeds in which the order, plan and estimate have been recorded as provided in section three. The proceeding thus instituted shall be in rem against the land to be taken, damaged or assessed, but every person appearing of record to have an interest in any of said land at the time of the adoption of the order shall be made a party respondent. The court shall issue an order of notice to all of said respondents, returnable at any return day which occurs thirty days or more after the filing of the petition, which shall be served upon all respondents who are residents of the commonwealth or can be found therein in the manner prescribed for serving a writ of summons in civil actions, and upon all other parties by posting a copy thereof on each parcel of land to be taken, damaged or assessed and by sending a copy thereof by registered mail to each of said parties whose ad-

dress is known, at least twenty days before said return day. Persons not in being, unascertained or unknown who may have an interest in any of such land shall be made parties respondent by such description as seems appropriate, and service may be made on such persons by publication, in such manner as the court may order.

Section 5. Any of said respondents, and any other person claiming an interest in any of the land to be taken, damaged or assessed by or on account of said improvement, may appear and file an answer within thirty days after the return day of the petition. In such answer he may (1) deny the right of the petitioner to make the improvement, or to take or damage his land, (2) deny the right of the petitioner to levy an assessment upon his land, (3) impugn the validity or regularity of the proceedings for establishing the improvement, taking property by eminent domain or assessing betterments therefor so far as any absence of such validity or regularity may affect the legality of the taking or damaging of his land, or of the assessment of betterments thereon, in which case he shall specify the invalidity or irregularity relied on, (4) deny the sufficiency of the compensation or damages allotted to him in the estimate of the board, in which case he shall state the amount of compensation or damages claimed by him, (5) deny that his property will receive benefit or advantage, other than the general advantage to the community, from the establishment of the improvement, in the amount stated in the estimate, in which case he shall state the value of such benefit or advantage, if any, which he admits his property will receive.

Filing of answer within thirty days after return day of petition, etc.

Section 6. The court shall, on motion of the petitioner, enter a default against all persons served with process or who otherwise appear to have seasonably received personal notice of the petition and who have not appeared and answered within the time prescribed. The court shall appoint one or more disinterested persons to act as guardian or guardians ad litem for minors, for persons under disability, and for all persons not in being, unascertained, unknown or out of the commonwealth, who have been named or described as parties respondent and for whom no duly authorized person has appeared and answered, and such guardian or guardians ad litem shall be allowed thirty days from his or their appointment to appear and answer on behalf of the persons whom he or they represent.

Entry of default against persons served with process, and who failed to appear, etc.
Appointment of guardians for minors, etc.

Section 7. If any person in his answer denies the right of the petitioner to make the improvement or to take or damage his property, or to levy an assessment thereon, or impugns the validity or regularity of the proceedings, the court shall forthwith hear and determine the issue thus raised, and may order the petition dismissed or may enter an order establishing the right of the petitioner to take the real estate, or interest therein, described in the order for the purpose therein stated and to assess betterments as therein set forth, or may enter such other order as law and justice

Hearing and determination by court if any person denies right of petitioner to make improvement or damage his property, etc.

may require. If the court does not order the petition dismissed, and one or more of the respondents allege exceptions or appeal to the supreme judicial court or the matter is reported to the supreme judicial court, further proceedings shall not be stayed unless the justice who heard and determined the matter so directs. If no such issue is raised by any person in his answer, the court shall, on motion of the petitioner, enter an order establishing the right of the petitioner to take the real estate, or interest therein, described in the order for the purpose therein stated and to assess betterments as therein set forth. An order under this section establishing the right of the petitioner to take property or to assess betterments shall be final and conclusive as to the validity of the proceedings up to the date of the adoption of such order.

Court to establish right of petitioner to take real estate and assess betterments if no issue is raised, etc.

Section 8. If the court shall enter an order establishing the right of the petitioner to take the real estate, or interest therein, described in the order for the purpose therein stated and to assess betterments as therein set forth, and any person has in his answer denied the sufficiency of his compensation or damages as estimated in the order under section three or has denied that his property will receive benefit or advantage in the amount estimated therein, the court shall appoint not more than three disinterested persons as commissioners to hear and determine the issues thus raised. The provisions of law in regard to auditors shall so far as apt apply to such hearing, and all controversies as to the amount of compensation, damages and betterments arising out of the same petition shall be referred to the same commissioners. The commissioners shall hear the parties as speedily as may be and shall thereafter file a draft report with the clerk of the court and shall send notice of such filing to the several parties. The commissioners shall not determine the compensation or damages to which any person is entitled to be greater than as alleged by him in his answer, nor less than as estimated by the board; nor shall they determine the benefit to any parcel of land to be less than as admitted by the owner in his answer nor more than as estimated by the board.

Redetermination by jury if any person is aggrieved by determination of commissioners, etc.

Section 9. Any person aggrieved by the determination of the commissioners with respect to his compensation or damages may have a redetermination thereof by a jury by making application therefor within twenty days after the sending of the notice of the filing of the commissioners' draft report. The application may be placed on the trial list of the next ensuing sitting of the court with jury in the county and heard and determined in the same manner as other civil cases and may be advanced for speedy trial; but if there are two or more such applications with respect to a particular public improvement which cannot be heard forthwith without unduly delaying the trial of other civil cases, the court may direct that a special jury be summoned to hear and determine all such applications. The chief

justice of the superior court shall preside or designate one of the associate justices of said court to preside over the sittings of such special jury, who shall have in the hearing and determination of such applications all the powers of a justice of that court presiding over the trial of an ordinary civil action. The award of the commissioners shall be prima facie evidence of the compensation or damages to which the applicant is entitled, and the jury shall not award compensation or damages to any person in a greater amount than as alleged by him in his answer nor less than as estimated by the board. If the jury does not agree upon a verdict, or if the verdict is set aside, the applicant shall be entitled to a new jury from time to time until a verdict has been rendered and established; but he may at any time, upon terms, waive his right to a trial by jury and accept the compensation or damages awarded by the commissioners.

Section 10. If the verdict of the jury as finally established shall differ from the award of the commissioners with respect to the compensation or damages to which any person is entitled, the report of the commissioners shall be amended accordingly, and, after all applications for redetermination of compensation or damages have been disposed of, the report shall be presented to the court for confirmation. The report of the commissioners as thus amended shall be final and conclusive as to all questions of fact, but the court may hear and determine questions of law arising therefrom and may order the report to be confirmed or to be recommended to the commissioners to be reconsidered in accordance with law, or may itself make such amendments and alterations as are necessary to render the report consistent with the law. If an appeal to the supreme judicial court or exceptions are taken with respect to the order of the justice of the superior court upon the motion for final confirmation of the commissioners' report, or if the matter is reported to the supreme judicial court, the same shall be heard and determined without awaiting further proceedings in the superior court. The operation of the order shall be stayed pending the disposition of such appeal, exceptions or report, and the order shall, if necessary, be modified to conform to the decision of the supreme judicial court. After the expiration of thirty days from the final confirmation of the report, or if the same is affirmed by the supreme judicial court, of thirty days from the date of the rescript of said court, if the proceedings have not in the meantime been discontinued, and if it shall be made to appear that all laws requiring appropriations of money, to be raised by loan or otherwise, in cases of taking of property by eminent domain, in so far as applicable, have been complied with, judgment of condemnation shall be entered upon motion of the petitioner which shall be final and conclusive against all the world with respect to the validity and extent of the taking, and the right of the petitioner to assess betterments therefor, and against all parties to the proceedings with respect

Commissioners' report, confirmation by court or recommendation to commissioners for reconsideration, etc.

Appeal to supreme judicial court, exceptions, etc.

When judgment of condemnation shall be entered, etc.

If judgment of condemnation is not entered within six months from the confirmation of the commissioners' report, or from the rescript of the supreme judicial court, the petition shall be dismissed upon motion of any one or more of the parties respondent. The clerk of the court shall forthwith transmit for record to every registry of deeds designated in the petition as provided in section four a certified copy of any judgment of condemnation entered under this section or of any interlocutory judgment of condemnation entered under section eleven.

Recording, etc.

Abandonment of proposed improvements and discontinuance of proceedings, etc.

Recovery of indemnity, etc.

Entry of interlocutory judgment of condemnation, etc.

Section 11. The board may at any time before final judgment of condemnation abandon the proposed improvement and discontinue the proceedings, in which case all action taken thereunder and under the proceedings for the laying out or establishment of such improvement shall become void; but in such case, or in case the petition shall be dismissed on motion of a party respondent under section ten, any person who has suffered damage or loss or been put to expense by the proceedings shall be entitled to recover indemnity in full by order of the court and for which execution shall issue. In case of abandonment or dismissal as aforesaid, the clerk of the court shall forthwith transmit for record to every registry of deeds designated in the petition as provided in section four a certificate that all proceedings in relation to such improvement have been discontinued or dismissed. At any time after the right of the petitioner to take the property described in the order for the purpose stated therein and to assess betterments therefor has been established, if it shall be made to appear that all laws requiring appropriations of money, to be raised by loan or otherwise, in cases of the taking of land by eminent domain, in so far as applicable, have been complied with, the court shall on motion of the petitioner enter an interlocutory judgment of condemnation, which shall have the same effect as a final judgment of condemnation, except with respect to compensation, damages and assessments for benefits, and the proceedings shall continue as herein provided with respect to compensation, damages, and assessments; but the petitioner shall not thereafter have the right to discontinue the proceedings.

The compensation or damages shall be payable when vested, or as soon thereafter as they

are finally determined, and if not then paid may be recovered in an action of contract. In case two or more persons have appeared in the proceedings as parties respondent with interests adverse to each other with respect to a particular parcel of land, the body politic shall not be bound to pay such compensation until one or more of such persons have established his or their rights thereto in proper judicial proceedings to which the others of such persons are parties; but the proceedings to determine the amount of compensation shall not be stayed pending the establishment of such rights. Compensation and damages shall be assessed as of the date of the adoption of the order, and shall bear interest at the rate of four per cent per annum from the date when the right to damages becomes vested until payable, but shall not bear interest after they are payable unless the body politic fails upon demand to pay the same to the person entitled thereto. The body politic shall not pay compensation or damages to any person in excess of its estimate, except in accordance with an award of the commissioners, nor in excess of the award of the commissioners, except as amended in accordance with a verdict of the jury.

When compensation and damages shall be assessed, etc.

Section 13. If the petition is dismissed under section seven, costs, as in actions at law, shall be awarded to the respondents, in addition to indemnity for loss and damages as provided in section eleven. If, upon entry of an interlocutory or final judgment of condemnation it appears that a respondent has been awarded greater compensation or damages than was allotted to him in the estimate contained in the order adopted under sections two and three or if betterments to be assessed on the land of any respondent have been determined to be less than as estimated in said order, such respondent shall be entitled to such costs; otherwise, he shall be liable for such costs.

Costs to be awarded in addition to indemnity for loss and damages if petition is dismissed under § 7, etc.

Section 14. If the right to assess betterments has been established, the board, within six months after the completion of the improvement, shall assess a proportionate share of the whole or part of the cost thereof upon each parcel of land with respect to which a benefit or advantage has been determined as herein provided and in the amount so determined, unless the betterments so assessed shall exceed the cost of the improvement, in which case they shall be proportionately reduced; and such assessments shall not thereafter be abated. The lien for such assessments shall take effect upon the recording of the order of intention to take under section three.

Apportionment of assessment of betterments, etc.

Section 15. The provisions of chapters seventy-nine and eighty, and all other provisions of law relative to proceedings under said chapters, shall apply to proceedings under this chapter, and to betterments assessed thereunder, so far as applicable and not inconsistent with the provisions hereof; but no petition for the assessment of compensation or damages or for the abatement of an assessment shall be maintained by any person who has been made a party to

the proceedings for condemnation or with respect to property the record owners of which at the time of the adoption of the order under section two have been made parties thereto. Failure to make any person having an interest in the land taken, damaged or assessed a party respondent under section four shall not invalidate the proceedings, but such person shall not be bound by the judgment in the proceedings in respect to compensation, damages or assessments. The court shall determine the compensation of guardians ad litem and commissioners appointed under this chapter, and shall have power to establish and regulate the procedure thereunder, so far as not therein prescribed.

NUMBER OF ACTS AND RESOLVES APPROVED, APPROVAL WITHHELD, AND LIST OF ACTS VETOED BY THE GOVERNOR AND PASSED OVER HIS VETO UNDER AUTHORITY OF THE CONSTITUTION.

The general court, during its first annual session held in 1929, passed 384 Acts and 56 Resolves which received executive approval and 1 Act from which executive approval was withheld but has become law by virtue of chapter 1, section 1, Article 2 of the Constitution of the Commonwealth.

The governor has returned 2 Acts with his objections thereto in writing. Upon 1 Act his objections were sustained.

One (1) Act entitled "An Act authorizing the Metropolitan District Commission to expend a further sum of money for the completion of the Brookline street-Essex street-Cottage Farm bridge" (Chapter 227) was passed, but failed to receive executive approval; as, however, it was not returned, with objections thereto, within five days after it had been received in the executive department, the general court not having been prorogued in the meantime, said act has the force of law, under the provisions of the Constitution governing such cases, and has been so certified.

One (1) Act entitled "An Act providing for an additional judge of probate and insolvency for the county of Hampden and abolishing the office of special judge of probate and insolvency in said county" was passed and laid before the governor for his approval; was returned by him with his objections thereto, to the branch in which it originated; was reconsidered, and the vote being taken on its passage, the objections of the governor thereto notwithstanding, it was rejected, and said act thereby became void.

One (1) Act entitled "An Act establishing the compensation of members of the General Court" (Chapter 333) was passed and laid before the governor for his approval; was returned by him with his objections thereto, to the branch in which it originated; was reconsidered, agreeably to the provisions of the constitution, and the vote being taken on its passage, the objections of the governor thereto notwithstanding, it was passed, and said act has thereby the force of law.

The general court was prorogued on Saturday, June 8, 1929, at fifty-nine minutes past eleven o'clock P.M., the session having occupied 158 days.
